Remarks:

Similarities were noted in the hand printing on Q225 and Q383 when compared with the hand printing on Q49 and Q48 in the MEDBURG case, which suggest the desirability of obtaining additional hand printing known to have been written by the writer of Q225 and Q383 for further comparison purposes (U)

Re: MEDBURG

Date: June 22, 1971
FBI File No. 52-94527
Lab. No. D-710618098 LC

Specimens received 6-18-71

Q383 Pamphlet of Underground Press Syndicate entitled "What in the Hell Does U.P.S. Do?" (U)

Result of examination:

It was determined that the writer of the hand printing on Q225, previously submitted in this case, prepared the hand printing on Q383. The hand printing on Q225 and Q383 is not sufficiently comparable with the questioned hand printing on Q49 and Q48 in the MEDBURG case, the questioned hand printing in the EASTCON and GARDBURG - ATTEMPT cases for meaningful comparisons to be made. Therefore, it was not possible to determine whether this questioned hand printing was or was not prepared by the writer of Q225 and Q383. (U)

The submitted evidence will be returned separately. Photographs are retained. (U)
